

Emerging Core Strategy

Lewes District Council, in partnership with the South Downs National Park Authority, is creating a Core Strategy. This is a strategic plan that will guide future development in Lewes District until 2030.

It will affect everyone who lives in, works in or visits Lewes District.

We want your views on the Emerging Core Strategy. This consultation document proposes potential options for future planning policies and locations of new development.

The Emerging Core Strategy is available in all libraries within the District, online at www.lewes.gov.uk/corestrategy and in the Council's Planning Offices at Southover House, Lewes.
